Contributing Open Source Arabization Features

WHAT?
what is missing

WHY?
why you should contribute

HOW?
how you can contribute

WHAT?

1. Multilingual support (WordPress, Drupal...)
2. Numbering & Accounting
3. Date & Currency formatting
4. Unicode features (PHP)
5. Layout optimizations to support RTL languages
6. Plenty of other features that need work!

HOW?

1. Tweet & share community solutions
2. Comment & contribute to community solutions
3. Your blog entries (no matter how small)
4. Your contribution to popular systems
5. Your standalone open source plugins and modules
6. Basically anything, SHARE IT!

WHY?

1. **BENEFIT** you will
2. Your projects will
3. Your clients will
4. Your company will
5. Your network / country / region will

THE WHOLE WORLD WILL!

THANK YOU!
